- Woke up to furnace not working, within a short time of giving them a call they arrived to troubleshoot the issue. Very knowledgeable and timely with the repair. Exceptional customer service, highly recommended giving them a call!
- We can't say enough good things about M&C Heating and Cooling. We have had issues with both our air conditioning unit and furnace and they have been very responsive to both issues. They even went above and beyond coming after working hours to fix a part so we would have heat on a super cold night. Highly recommend for all of your heating or cooling needs!

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle.
