## Town of Lynn Schedules Catlin Avenue Bridge over the South Branch of O'Neill Creek Public Involvement Meeting

The Town of Lynn is conducting a Public Involvement Meeting concerning proposed improvements to the Catlin Avenue Bridge and approaches at the South Branch of O'Neill Creek crossing in the Town of Lynn. The proposed project will be approximately 150 feet in length.

The meeting is scheduled for **Tuesday, October 29, 2024, from 5:00 p.m. to 6:30 p.m.** and will be conducted in an open house format at the Lynn Town Hall, W1877 US 10, Granton, WI 54436. ## Liberty and Property Rights Matter

The position of register of deeds in any county is one of great importance. I am concerned that Ms. Knudtson (along with people who have publicly endorsed her) doesn't understand many things about the office for which she is running. In a response to a Facebook post, Ms. Knudtson stated "We don't have control over anyone's freedom or property rights and therefore true experience matters most in these types of offices." She later doubled down in a separate post, "...Our office has zero control over personal freedoms or property rights."

Her comments tell me that she views the Register of Deeds as merely a clerical job. In reality, the Register of Deeds is an elected official of a Constitutional office defined by the Wisconsin Constitution. The office is entrusted with protecting vital records and property rights and, by extension, the liberties of We the People. Constitutional Officers take an oath to uphold the Wisconsin Constitution and are obligated to interpose before rights are compromised.

According to the American Policy Center (a 501c4 organization dedicated to protecting and preserving property rights), the County Recorder's office (or Register of Deeds, here in Wisconsin) is the most powerful force of freedom in the world. This office enables American citizens to invest in and produce their own capital and build wealth. The records at the office of the Register of Deeds provide proof of individual ownership and that proof of ownership is the key to building the wealth which empowers We the People.

In the words of Peruvian economist Hernando DeSoto, "Capital is the force that raises the productivity of labor and creates the wealth of nations. It is the lifeblood of the capitalist system, the foundation of progress, and the one thing that poor countries of the world cannot seem to produce for themselves."

Laws and practices of poor countries in the world make it almost impossible for average citizens to own and prove ownership of their property. There are huge obstacles to gaining legal ownership.

DeSoto continues, "in Mexico, it takes twenty years before a piece of property can be recorded. In Peru, it took (DeSoto's) team of experts 289 days to legally register a new business, even after paying over \$1200 in registration fees."

These are just two examples of difficulty in recording ownership outside the United States. The impact of long waits and huge fees discourages even the ATTEMPT to register property.

According to the American Policy Center, if ownership of property cannot be properly recorded and able to be directly traced to the owner, then it cannot create equity and cannot be used as collateral for credit. The property is of no value to the owner and becomes nothing more than an expense.

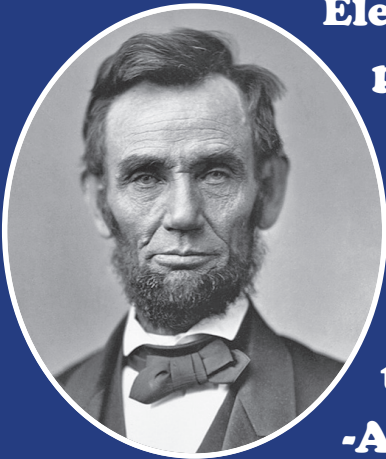

If a person doesn't have or cannot prove title to a piece of property, then no bank will make loans on that property, thus effectively ending the person's ability to use that property as an investment tool. This is critical for farmers, small business owners or people just starting a business. Livelihood and freedom depend on accurate records.

Why is it that Ms. Knudtson does not recognize the importance the Register of Deeds has in protecting liberty and personal property rights? This is INEXCUSABLE! Individuals who endorsed Ms. Knudtson should re-evaluate, especially when one considers the support she has received from the local Democrat Party. The Democrat Party platform is highly socialist and is constantly eroding our property rights. Therein lies the REAL bias and hatred. I asked Siri "What has socialism done over its history?" The reply was "Historically, socialism - defined as government control over all or most of the economy - has led to mass murder, poverty and oppression on an enormous scale" Why would anyone vote for an "independent" who willing accepts in-kind donations from the Democrat Party of Jackson County? Such deception is highly concerning.

I wholeheartedly endorse Rebecca Franks for Jackson County Register of Deeds. She loves our country, state and county, and is well versed in the Constitution. She supports liberty and property rights and has a high degree of integrity. She knows the importance of this office and will serve her community well.

REBECCA COOKE

for CONGRESS

LOCAL ROOTS. WORKING-CLASS FIGHTER. DELIVERING RESULTS FOR WISCONSIN.

Rebecca Cooke is a waitress, small business owner, and results-driven nonprofit leader who grew up working on a sixth-generation Wisconsin dairy farm. Rebecca is running for Congress because political elites and extreme Washington politicians like Derrick Van Orden aren't focused on us. **Rebecca will stand up to extreme partisans and work with both parties to deliver results for us.**

**Lower prices for Wisconsinites** by cutting taxes for the middle class and making housing more affordable.

**Reduce healthcare costs** and keep politicians out of personal medical decisions.

**Level the playing field** so family farmers, small businesses, and workers can make ends meet.

**Work to secure America's southern border** by supporting a bipartisan agreement to add border patrol agents.
