**AND GOD SAYS . . .**

**Donald Miller writes in his book, Searching for God Knows What:**

"I have on my desktop a picture of a boy named Sasha. Sasha is one of the children of Chernobyl, a young boy born after the disaster that happened when the core at a nuclear facility in Russia melted and leaked. This little boy is perhaps 5- years-old . . . His head and shoulders (are) the only portion of his body not mutated. On the right side of Sasha's chest rises a lump the size of a softball, and his belly grows out disfigured before him . . . Sasha, the article in which I found the picture states, lives in constant pain.

"As terrible as it is to compare Sasha to ourselves, I have to go there . . . I believe we are in the wreckage of a war, a kind of Hiroshima... with souls distorted like the children of Chernobyl. As terrible as it is to think about these things, as ugly as it is to face them, I have to see the world this way in order for it to make sense."

Isn't this pretty much what God says? "There is no one righteous, not even one . . . All have turned away . . . There is no one who does good, not even one... Their tongues practice deceit . . . Their mouths are full of cursing and bitterness. Their feet are swift to shed blood; ruin and misery mark their ways, and the way of peace they do not know. There is no fear of God before their eyes." (Romans 3:10-18).

This is God's description of our disfigured souls. The constant inner turmoil of our souls breaks out in violence, hatred and pain resulting in the increasing violence in our nation and the world because we fear Him no longer.

This is also why Christmas is so important and significant. It is the story of God's intervention into our hopeless, painful existence. It is the story of Jesus, God's son, born as a babe to intercede for us by eventually dying for us. But more than that, it is the story of His resurrection from the dead for our victory. Finally, it is the story that culminates with Jesus coming back to earth to redeem us to Himself to live eternally. And this He offers to us if we will but put our faith in Him, making Him Lord of our lives. He is really our only hope.

## Clark County Humane Society's Pet of the Week

### “GINNY”

Ginny is the CCHS Pet of the Week!

Ginny is a one-year old Hound mix who came to CCHS as a stray from the Neillsville area. She has the standard black and tan short-haired coat you would expect for a Hound, and she weighs 45#. Ginny is an all-around great girl with a sweet personality and a great outlook on life. She is friendly and loves to spend time with people. She also gets along great with other dogs. She'd love to have a fenced yard where she and a doggie pal could play for hours, then settle in for a nice long nap on your couch! She may not have the “cute little puppy” thing going on, but she is an outstanding girl and will be a great addition to your family. If you'd like to bring Ginny Home for the Holidays, please apply to adopt her today. You can submit your adoption application for Ginny on our website: [www.cchs-petshelter.org/applying-to-adopt](http://www.cchs-petshelter.org/applying-to-adopt). We have lots of wonderful pets available for adoption now, so please check them all out and then stop in to visit!

Do you have a love for cats and dogs and have been thinking it would be nice to help out at CCHS? Well, now's your chance! Whether it's a few hours a week, one day a month, or something in between, this is your opportunity to try it out. We are very much in need of volunteers! You can learn more and sign up on our website: <https://www.cchs-petshelter.org/volunteer> or email April at [cchsoutreach1@gmail.com](mailto:cchsoutreach1@gmail.com). Come join our CCHS volunteer family.

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle.
