Notice of Pending Application for Proposed Installation of New Culvert Crossing (Grassland Dairies Powder ASRS – 230299100)
Laura Opelt, N8790 Fairground Ave, Greenwood, WI 54437 has applied to the Department of Natural Resources for a permit to install a new culvert crossing within Cawley Creek associated with the expansion of an existing powder warehouse. The project is located in the SE 1/4, NE 1/4, Section 14 Township 26 North, Range 02 West located in Town of Eaton, Clark County.
This project is named "Grassland Dairies Powder ASRS – 230299100" and involves a private dairy processing company which primarily processes and packages butter. This facility is expanding and needs additional storage space to keep up with their production

goals and reduce costs. A major part of Grassland Dairy's operation includes the sale of milk powder created in the process of making butter. The Greenwood plant's existing powder warehouse is currently at capacity and has forced Grassland Dairy to lease additional warehouse space offsite. The cost of shipping powder to warehouses offsite and the cost to lease warehouse space is a significant expense. To reduce leasing and trucking costs Grassland Dairy is looking to expand their existing powder warehouse. The expansion will be a 64,265 ft² automated storage and retrieval system (ASRS) warehouse.
The ASRS system will reduce the total footprint of the warehouse addition by allowing product to be stacked higher and closer together. The warehouse will require narrower and fewer aisles in between racking than a standard warehouse. As part of the proposed expansion, two proposed 38-inch diameter elliptical concrete culverts will be installed under the proposed drive to maintain existing hydrology to the wetland and maintain flow through Cawley Creek. The dimensions of the two proposed concrete culvert segments include each segment being 160 feet long, with a diameter of 38 inches and a length of 60 inches, along with a slope of 0.4%. The culverts will be installed per the Standard Specification for Sewer and Water Construction in Wisconsin using crushed stone base for the culverts and granular backfill around the culvert. To protect the adjacent wetland silt fence will be installed along the north side of the wetland prior to construction. A ditch check will also be installed at the discharge of the culverts to prevent sediment draining through the culverts from entering the wetland. Rip rap will be installed on the inlet and outlet end of the culverts to prevent any scour or erosion after construction is completed.
The Department will review the proposal provided by the applicant and any information from public comments and the public informational hearing. The Department will determine whether the proposal complies with ss. 1.11, 30.123, 30.208, Wis. Stats., and ch. NR 150 and ch. NR 320, Wis. Adm. Code.
The Department has made a tentative determination that it will issue the permit for the proposed activity.
If you would like to know more about this project or would like to see the application and plans, please visit the Department's permit tracking website at <https://permits.dnr.wi.gov/water/SitePages/Permit%20Search.aspx> and search for Opelt or WP-IP-WC-2023-10-X12-14T15-32-19.
Reasonable accommodation, including the provision of informational material in an alternative format, will be provided for qualified individuals with disabilities upon request.
Any person may submit comments and/or request a public informational hearing by emailing roberta.hoffman@wisconsin.gov, over the phone at (715) 499-0716, or writing to Robert Hoffman, 107 Sutliff Ave., Rhinelander, WI 54501 by U.S. mail. If you are submitting general comments on the proposal, they must be emailed, verbalized, or postmarked within 30 days after the date this notice is published on the Department's website. If you are requesting a public informational hearing, the request must be emailed, verbalized, or postmarked within 20 days after the date this notice is published on the Department's website. A request for hearing must include the docket number or applicant name and specify the issues that the party desires to be addressed at the informational hearing.
